**Importance:** High

All changes made. Scott has the final and I will hand carry to Ron shortly.

Sorry, I had to leave for a dr. appointment.

**Subject:** RE: AG Koster letter

Karl,

This draft addressed one of my concerns with the changes at the end of the letter. I also suggest we consistently use “radiologically impacted material” rather than “ radiological contamination” in a couple of places. Otherwise looks good.

Ron

**Cc:** Cacho, Julia; Hague, Mark  
**Subject:** AG Koster letter

Please see this version: I changed last graf to reflect discussions this morning with SPP at MDNR. And I'd like to be able to share verbally the basic contents of this letter with AG's Farnsworth at noon today. Even if letter not finally concurred by then, please let me know if you're ok with revised version, as I understand both CT and RH had suggestions this morning.
